No. 345RL

---

FULL MORTISE INTERIOR PASSAGE LOCK

The Lowe #345RL full mortise interior passage latch is available in 1-3/4", 2", 2-1/4", 2-1/2", and 2-3/4" backsets as standard with custom sizes available upon request. Being a modular design, the latch is available in a magnetic option with lipless strike box. The roseless adapters fastened to the case allow handles to be mounted to the door without the use of roses or escutcheons – achieving less clutter on the door face. This lock is typically used on interior doors of all sizes and can be configured at the factory to be used with knobs or levers. Supplied with strikeplate and dustbox, the faceplate is adjustable for beveled doors.

Available in any of our yacht quality finishes.
